

HD100, HD100EC, PRO100, R, O

Product Note

couple or couplings or couplings
Note: Seal-Tite or Seal-Tite couplings to couplings

- **Seal-Tite™ Couplers by Springseal (24 to 48").** A bell-bell co-extruded coupler made from polypropylene and a thermoplastic elastomer, secured with tightening bands. The Seal-Tite™ coupler provides joint performance comparable to an ASTM D3212 bell-and-spigot connection.
- **Large Diameter Fernco couplers (or equal).** Manufactured to order, these large-diameter couplings can suit any outside pipe diameter. Typically a 10" wide, 1/2" thick rubber coupling with multiple sealing ribs and stainless-steel clamps capable of meeting watertight field test requirements when installed per manufacturer's recommendations.
- **PVC Bell-Bell Repair Sleeve by Harco Fittings (12 to 30").**
